

ASSISTANCE | REHABILITATION | CARE

Case Management

ARC Support Services have fully qualified staff to provide high-quality, holistic case management and coordination of support services to provide a collaborative process of planning, facilitating and advocacy options, along with the identifying services to meet an individual's requirements.

NDIS / Attendant Care

ARC Support Services are solution focussed and can adapt dynamic ways of implementing support in line with the NDIS planning outcomes. We understand that everyone's needs and preferences are unique and we endeavour to provide opportunities for people in need, to reach the fullness of life.

Our attendant care services are focussed on maximising existing and developing new life skills to enable clients to live as independently as possible within their home and their community.

All of us, at certain moments of our lives, need to take advice and to receive help from other people.

ALEXIS CARREL

Social and Leisure Inclusion Program (SLIP)

ARC Support Services have developed an engaging activities program specifically designed for children and young people who require peer support, motivation and role modelling to engage in relationships with others. The Social and Leisure Inclusion Program is designed to assist with establishing individual sustainable social networks, whilst having fun and experiencing new opportunities, activities and environments. We actively nurture a sense of belonging and inclusion.

The program incorporates scheduled and structured events that young people will have the opportunity to attend.
